

THE TRADING ZONE

Emini Trading Zone Report For Friday, January 27, 2023

Prices broke through long-term (over a year) resistance, finally! See image next page. This is highly significant and a very big deal.

Unless there's negative news overnight, tomorrow is highly likely to be positive. This is a milestone and it shows why it's so important to know the

Trading on Thursday rewarded with another gap trade - good for 30 points. Nothing to sneeze at.

big picture. Range was less than forecast but the calculated trading zone for tomorrow forecasts another high.

Trading Zone For Friday, January 27, 2023

Resistance: 4087
Support: 4035
Range: 51 points
Last Close: 4074

“the calculated trading zone for tomorrow forecasts another high.”

- MARV EISEN

The S&P daily chart shows that prices traded - and closed - above key resistance.
